“The ongoing Latino Action Network vs. New Jersey litigation serves as a reminder that the challenges we face in our education system require proactive and thoughtful solutions. IDSC is a proven program that expands educational opportunities and elevates academic achievement by providing access to quality education across district lines. It has helped increase diversity in choice districts, helped districts maintain special programming, and provided options for students facing social conflicts. With the right investment, IDSC can be sustainably expanded to serve an even broader population of students, paving the way for long-term benefits across our communities. We urge the Governor and the Legislature to explore all available avenues to secure the funding necessary to build on IDSC’s success.”
